Health Concept: I can eat 5 or more fruits and vegetables every day. Fruits and vegetables are full of vitamins. Vitamins help your body make energy for physical activity.

Directions: Unscramble the fruit and vegetable words. Write the letters on the line. Cross out the words in the Word Box as you go. Color the fruits and vegetables.

Word Box

<table>
<thead>
<tr>
<th>Apple</th>
<th>Grape</th>
<th>Carrot</th>
<th>Orange</th>
<th>Peas</th>
</tr>
</thead>
</table>

1. e o a n r g  orange

2. e p a s  peas

3. p p a e l  apple

4. t c o arr  carrot

5. r p e a g  grape
Health Concept: I can move for 60 minutes or more every day. Being active is much more fun when done with family and friends. Ask others to join you in different physical activities.

Directions: Read each sentence below and decide if it is a statement (telling sentence) or a question (asking sentence). Put a period (.) at the end of a statement. Put a question mark (?) at the end of a question. Circle the activity words in each sentence.

1. What is your favorite activity: running or playing tag with your friends?

2. My brother likes to play flag football, and my mom likes to walk.

3. My sisters and I like to climb and swing on the monkey bars.

4. Do you like riding your bike to the park with your family?

5. Andres, did you play basketball or baseball?

Write a statement about a physical activity you like to do:

__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________

Write a question about a physical activity you want to try with your friends:

__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________
**Health Concept:** I can drink more water and less sugary drinks. Drink water before, during and after physical activity. Sodas and sports drinks are high in sugar and are less healthy than a glass of water. Your body will love you for choosing water!

**Directions:** Use the Tally Table below to answer the questions. Write your answer on the line.

**Tally Table**

<table>

*Water* is always the healthiest option! Water helps your body live, move and grow. Sugary drinks like soda and sports drinks slow us down. Choose to be healthy, and give your body the drink it deserves: water!
Health Concept: I can move for at least 60 minutes every day. It’s easy to reach 60 minutes if you walk the dog, play tag or go for a bike ride.

Directions: Write either “I” or “me” in the blank for each sentence. Circle the activity words in each sentence.

1. ________ like to play hopscotch with my friends during recess.
2. My brother showed ______ how to ride a bike.
3. Tyrone and ______ ran one mile on Monday after school.
4. Tyrone helped ______ stretch my legs.
5. Miguel and ______ went swimming in the lake.
6. Can Susie and ______ play tag with you tomorrow?
7. ______ will play catch with my baby brother every day.
8. Please let ______ play ball with you and Kara.
9. ______ cannot wait for recess so I can run and play hard.
10. Mom and ______ walk the dog after dinner every day.

Be a health superstar!
Now, complete this week’s Morning Work in your agenda.
**Health Concept:** I can eat 5 or more fruits and vegetables every day. I can also eat more whole grains! Look for breads, cereals and snacks with “whole wheat” or “whole grain” as the first ingredients on the food label. Try to eat at least 6 servings of whole grains every day.

**Directions:** Solve the word problems and write the number in the sentence. We did the first one for you!

1. Trina has 6 whole-wheat muffins for breakfast. Trina gave 3 muffins to her brothers. **How many muffins does Trina have now?**

   \[6 - 3 = 3\] muffins

2. Marcus ate 2 slices of whole-wheat bread. His mom ate 2 more slices of whole-wheat bread. **How many slices of whole-wheat bread did they eat?**

   \[2 + 2 = 4\] slices

3. All 6 boys ordered brown rice for dinner. All 4 girls ordered brown rice. **How many boys and girls ordered brown rice?**

   \[6 + 4 = 10\] boys and girls

4. Sean had 1 serving of oatmeal for breakfast. He ate 2 servings of whole-wheat bread at lunch. For dinner he ate 1 serving of whole-wheat pasta. **How many whole-wheat servings did Sean have in all?**

   \[1 + 2 + 1 = 4\] servings
**Health Concept:** I can eat 5 or more fruits and vegetables every day. Fruits and vegetables are not only meant to eat with meals. Try munching on grapes or carrots for a healthy snack between meals.

**Directions:** Solve the word problems and write the number in the sentence. We did the first one for you!

1. The Allen family ate 5 bags of grapes for a snack. They ate 3 more bags for dinner. **How many bags of grapes did the family eat?**

   
   
   
   

2. For breakfast, Jaiden and his friends ate 5 oranges. They ate 4 more oranges after playing soccer. **How many oranges did they eat?**

   
   
   
   

3. Erica has 5 bananas for a school snack. She shared 3 bananas with her teacher. **How many bananas does Erica have?**

   
   
   
   

4. Devin ate 1 apple with peanut butter for breakfast. He ate 2 oranges for a snack. **How many servings of fruit did Devin eat?**

   
   
   
   

Health Concept: I can be physically active 60 minutes or more every day.

Being active 60 minutes each day takes time. Make time each day to play and move before, during and after school and on the weekends. To reach 60 minutes, we can estimate. An estimate is a close guess of an actual value (number) after some careful thinking and some simply math.

Directions: Circle the best estimate of time it takes to complete each activity.

1. Swimming in a pool
   a. About a week
   b. About a minute
   c. About an hour

2. Playing soccer on the weekend
   a. About 3 seconds
   b. About an hour
   c. About a year

3. Playing tag with friends
   a. About a week
   b. About a minute
   c. About 20 minutes

4. Running a mile
   b. About a day
   c. About a month
   d. About 15 minutes

5. Riding a bike around the park
   a. About a week
   b. About a month
   c. About 30 minutes

6. Walking the dog
   a. About a year
   b. About a day
   c. About an hour
**Health Concept:** I can eat 5 or more fruits and vegetables every day. This does not mean you do not have to give up foods like hamburgers, ice cream and french fries to eat healthier. Just try to not eat these foods every single day. Save these types of foods for special times.

A **common noun** is a general person, place or thing.

Examples: I ran to the **store**.  
You played **football**.

A **proper noun** is a specific person, place or thing. Always capitalize the first letter of a proper noun.

Examples: I rode by bike around **Atlanta**.  
**Mr. Norris** is my PE teacher.

**Directions:** Underline the common nouns with a red crayon. Underline the proper nouns with a green crayon. Draw a 😊 at the end of each sentence that contains foods we should eat all the time.

1. **Kris** and I eat **cake** on **special occasions** like our **birthdays**.
2. **Paul** goes to **Carol’s Fruit Stand** to buy fresh **fruit** every **week**.
3. My **family** loves to eat red and green **grapes** for a healthy **snack**.
4. Should you eat **pizza** every day at **Burger Planet**?
5. **Diego** and **Trey** choose a fresh **apple** for a **snack**.
6. My **friends** eat **bananas** at **lunch**.
7. **Georgia** grows a lot of **peaches**.
8. **Ariana** packed **berries** in her **lunchbox**.
**Health Concept:** I can eat 5 or more fruits and vegetables every day, drink more water and less sugary drinks and get 60 minutes or more of physical activity every day. Healthy snacks and fun physical activities work together to make your grow stronger.

**Directions:** Fill in the K-W-L Chart using the Health Concept above.

My Healthy Bumper Sticker

Health Concept: I can move for 60 minutes or more, eat 5 or more fruits and vegetables and drink more water and less sugary drinks. Families and schools have to work together to make sure you become strong and healthy!

Directions: Create a bumper sticker that shows how your family and school work together to make sure you eat fruits and vegetables every day and stay active every day. Draw and color a picture of the healthy foods you eat at school in the square and at home in the circle. Draw a picture of you being active in the triangle.
**Health Concept:** I can eat 5 or more fruits and vegetables, drink more water and less sugary drinks and move 60 minutes or more every day. HealthMPowers hopes you know how to take care of your body. Please share what you have learned this year about eating healthy and being active.

**Directions:** Write about something new you learned about being healthy. Draw a picture.

I learned
